

# A vision to serve the unreached in a faster, comprehensive way that amplifies the health impacts of clean water and advances the gospel.

We're in year 2 of a multi-year approach to saturate entire regions with clean and living water. Instead of serving various communities in one country, we've identified 14 regions with urgent and massive need for clean water and the gospel.

When one community has access to clean water, and then their neighboring communities do as well, the health impact of the entire area improves tenfold. And it's easier for the gospel to go forth among the unreached as pastors share in communities with close proximity to one another.

Together, we can see thousands of families no longer worry about having safe drinking water that is accessible to their family. We invite you to partner alongside us to saturate these regions with clean water and see churches equipped and empowered to reach their own.

Matt Letourneau, CEO

Where We Serve

## Africa

- 1 NIGER**  
+ DEPARTMENT OF TIBIRI
- 2 CHAD**  
+ DOUBALI COMMUNE
- 3 ETHIOPIA**
