

A vision to serve 100% of strategic unreached regions with clean and living water by 2028.

Together with our local partners, we've researched regions within eight target countries where the need for clean water is great **and** it can be solved in five years. These regions have been further prioritized because the majority of the population is unreached with the gospel.

What will this vision tangibly look like?

1. 100% of people in each region will have access to clean water
2. Communities have sustained use of improved hygiene and sanitation
3. Improved relationship between the Church/local believers and the community
4. Pastors and churches are empowered to share the gospel

2024 marks the beginning of this vision. The work is massive and the impact is tangible. Together, we can see thousands of families no longer worry about having access to clean drinking water. We invite your partnership in saturating these unreached regions with clean water and empowering the local churches to reach their own.

Matt Letourneau, CEO

Where We Serve

Africa

1 NIGER

2 CHAD

3 ETHIOPIA

4 UGANDA

5 DR CONGO

Asia

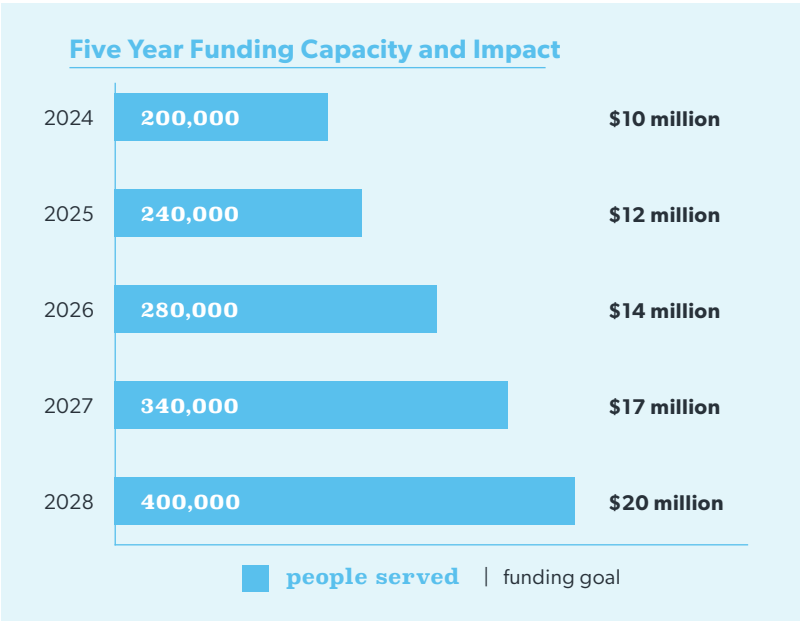

6 INDIA

7 NEPAL

8 CAMBODIA

You can help bring **1,460,000** unreached people access to clean and living water by 2028.

We are serious about making every dollar count.

neverthirst was selected by ROI Ministry as a Top 10 Ministry for measurable Kingdom impact per dollar.
