

Annual Report

2024

MORE THAN ONE MILLION SERVED. MORE THAN 703 MILLION TO GO.

When we look at the Goliath-sized mountain ahead, we must trust, like David in 1 Samuel 17, “the battle is the Lord’s.”

In 2024, God certainly showed Himself powerful through your remarkable generosity and commitment to reach the men, women, and children who not only lack clean water, but have yet to hear the truth that will forever satisfy them — the gospel.

When you gave last year, you funded the first piped water pilot projects in India. These projects (mechanized boreholes) drill deeper into the earth in order to reach more water and serve larger communities.

When you gave, you enabled neverthirst to staff our first Director of Program Quality, a role that is focused on the monitoring and evaluation of each water point, starting from 5 years ago and forward. This ensures long-lasting effectiveness of each water point and program.

When you gave, you funded holistic transformation resources like video projectors in Africa, so hundreds of people could see “The Jesus Film;” audio devices in Nepal so people could listen to the gospel in their own dialect; and retreats to minister to the spirit of pastors who risk their very lives in hostile conditions throughout Niger and Ethiopia.

When you gave, thousands of lives were impacted today with clean water, and eternally with the transformative hope of the gospel.

Thank you for your heart in this ministry. Thank you for believing with us that “the battle is the Lord’s” and He will indeed show His faithfulness.

Gospel Impact

As your financial support helps meet physical needs, the local church is empowered to reach marginalized and unreached people groups with the gospel. neverthirst intentionally partners with local pastors and churches to offer living water in the most remote areas of the world.

Physical Rejuvenation

Each completed project not only provides clean water, but also teaches community members the essentials of hygiene and sanitation. Breaking the cycle of disease, these projects improve health and increase work opportunities. They improve safety for women and children who no longer have to trek on dangerous paths to collect water. Clean water means more time in school, as children are healthier and able to attend class.

Financial Transparency

With a strong commitment to transparency and stewardship, neverthirst is proud to share that 81 cents of every dollar received was used in clean water projects.
